

ANDRÉS TRUJILLO MATEUS

TEAM LEAD | SOFTWARE ENGINEER | FULL-STACK DEVELOPER | AUDIOVISUAL PRODUCER

Colombia (UTC-5) | byuwur.co | github.com/byuwur | linkedin.com/in/atrujillomateus | atrujillomateus@gmail.com

PROFESSIONAL SUMMARY

Currently working as Team Lead at Vehikl. Bilingual Systems Engineer with professional experience developing, deploying and supporting web and mobile solutions since 2018, complemented by audiovisual production experience since 2014.

Simple is complicated enough: I build strong and reliable tools that make complex workflows easier to operate. I create useful things.

Experienced across full-stack development, client implementation, production support and technical delivery, with hands-on work in React, React Native, PHP, MySQL and AWS. I build software with purpose and impact, backed by additional experience in audiovisual production and live broadcasting.

PROFESSIONAL EXPERIENCE

TEAM LEAD / SOFTWARE DEVELOPER

October 2023 - Present

@ Vehikl (via Magnet360) | Remote

- Promoted from Software Developer to Team Lead, leading 3 developers and owning client delivery end to end: from requirements and solution design to QA, releases and production support; while developing and optimizing a TypeScript serverless system on AWS, balancing delivery speed, code quality and continuous system improvement.

SOFTWARE DEVELOPMENT ANALYST - HYBRID MOBILE

August 2022 - February 2024

@ Luvity (via Nexos Software) | Remote

- Delivered core frontend features and production fixes for a banking client using proprietary low-code tooling, improving transaction clarity, usability and reliability in a high-change environment.

BACKEND WEB DEVELOPER

August 2022 - June 2023

@ Orbit Investments (via Rivka) | Remote

- Built a geospatial property-search system supporting radius, polygon, ZIP-code and county searches while extending and supporting the PHP/MySQL platform through features, troubleshooting and hotfixes.

AUDIOVISUAL PRODUCER - INSTITUTIONAL COMMUNICATIONS

March 2021 - June 2022

@ UniEspinal, formerly ITFIP

- Produced and operated 100+ videos, broadcasts and campaigns across videography, photography, editing and live production for a university community of 40,000+ people.

VIDEO PRODUCER AND STREAMING MASTER

July 2020 - December 2020

@ Producciones C&N

- Produced, edited and operated live and recorded video productions across entertainment, corporate events and streaming workflows.

CORE EXPERTISE

WEB & BACKEND: PHP, Go, JavaScript & TypeScript, Bootstrap & Tailwind, JSON, GraphQL, REST API, HTML5 & CSS3, MySQL

FRONTEND, DESKTOP & MOBILE: React, React Native, Expo, Wails (Go), Python, Java, Native Android Development

CLOUD & SOFTWARE DELIVERY: AWS, Serverless, CI/CD, GitHub Actions, Git, Apache, Nginx

IMPLEMENTATION & SUPPORT: Client Implementation, Application and Production Support, Requirements Analysis, Troubleshooting, Technical Documentation, Agile Development

AUDIOVISUAL & MEDIA: DaVinci Resolve, Premiere Pro, Vegas Pro, Photoshop, Lightroom, OBS Studio

EDUCATION

SYSTEMS ENGINEERING

Graduated, March 2021

@ UniEspinal, formerly ITFIP

GPA: 4.1 / 5.0 | Credential: 161122-0596750 TLM

LANGUAGES

English: **C2 Proficient** - EF SET Certificate

Spanish: **Native**

INDEPENDENT WORK

SOFTWARE DEVELOPMENT & DIGITAL MEDIA

2018 - Present

 @byuwur | github.com/byuwur ; youtube.com/byuwur ; twitch.tv/byuwur ; tiktok.com/@byuwur ; instagram.com/byuwur

- Build and maintain independent software, open-source developer tools and production utilities under byUwUr, taking projects from requirements through implementation and maintenance with an emphasis on lightweight, reusable and reliable solutions.
- Produced and published 350+ YouTube videos across technology, gaming, interviews and events, managing recording, editing, thumbnails, livestreaming and distribution end to end.
- Built the byUwUr brand across software and digital media, reaching ~2,000 YouTube subscribers, ~500 Twitch followers and 38,000+ TikTok likes while maintaining a consistent focus on useful tools, practical content and quality execution.

SELECTED PROJECTS

STREAM.FGC - TOURNAMENT CONTROL & STREAMING PLATFORM

2026

 @byuwur | github.com/byuwur/stream.fgc

- Built a portable tournament-control desktop app with Go, Wails, local JSON state, HTML overlays and start.gg GraphQL.

SCHOOL GRADING PLATFORM

2019 - Present

Liceo Moderno Semillas de Alegría | semillasdealegriaespinal.com

- Built and maintain a PHP grading platform that automates reports and administration for ~400 students annually.

SPA.PHP - LIGHTWEIGHT SINGLE-PAGE APPLICATION FRAMEWORK

2023

 @byuwur | github.com/byuwur/spa.php

- Developed a lightweight PHP SPA framework with routing, AJAX, auth, reusable views, CSRF and Apache/Nginx support.

STREAM.HTML - OBS WEB OVERLAY TOOLKIT

2022

 @byuwur | github.com/byuwur/stream.html

- Built configurable OBS overlays with reusable components for scenes, animations, countdowns and popups.

EASY JSON VIEWER - JAVASCRIPT COMPONENT

2024

 @byuwur | github.com/byuwur/easy-json-viewer

- Developed a lightweight JavaScript JSON viewer with collapsible nodes, syntax highlighting, themes and chunked rendering.

DEVELOPER UTILITIES - EASY SIDEBAR BOOTSTRAP & EASY HTTP ERROR

2021

 @byuwur | github.com/byuwur/easy-sidebar-bootstrap ; github.com/byuwur/easy-http-error

- Built reusable Bootstrap/jQuery navigation and Apache/Nginx HTTP error components for responsive web interfaces.

PROFESSIONAL DEVELOPMENT

 **Platzi:** 540 hours of certified technology and professional coursework | <https://platzi.com/p/atrujillomateus/>

 **edX:** 60 hours of certified online coursework | <https://profile.edx.org/u/atrujillomateus>

 **SENA:** 240 hours of complementary technical coursework
